OVERVIEW

Large projects require hundreds of items from many categories. COTI groups them into one coordinated package, with a single point of contact for sourcing, documentation, inspection, expediting and logistics.

CONTENTS

- 25.1** Multi-category project procurement and client-specific bill-of-material sourcing.
- 25.2** Equipment, spare-parts, maintenance and safety packages.
- 25.3** Framework-supply and replenishment support.
- 25.4** Vendor coordination, documentation, inspection, expediting and logistics integration.
- 25.5** Special project requirements evaluated against technical, regulatory, commercial and export...

25.1 Multi-category project procurement and client-specific bill-of-material...

SUPPLY SCOPE

Multi-category project procurement and client-specific bill-of-material sourcing.

DEFINITION

Multi-category procurement handles many types of items in one project. A bill of materials (BOM) is the client's complete list of items; COTI sources each line according to its specification.

25.2 Equipment, spare-parts, maintenance and safety packages.

SUPPLY SCOPE

Equipment, spare-parts, maintenance and safety packages.

DEFINITION

Packages group items by purpose: equipment, spare parts, maintenance materials or safety supplies, prepared and delivered together.

25.3 Framework-supply and replenishment support.

SUPPLY SCOPE

Framework-supply and replenishment support.

DEFINITION

A framework agreement fixes prices and conditions for repeated orders over a period. Replenishment support restocks items regularly according to consumption.

25.4 Vendor coordination, documentation, inspection, expediting and logistics...

SUPPLY SCOPE

Vendor coordination, documentation, inspection, expediting and logistics integration.

DEFINITION

COTI integrates vendor coordination, documentation, inspection, expediting and logistics so that the client deals with one coordinated supply chain.

25.5 Special project requirements evaluated against technical, regulatory,...

SUPPLY SCOPE

Special project requirements evaluated against technical, regulatory, commercial and export requirements.

DEFINITION

Special requirements are evaluated against technical, regulatory, commercial and export-control rules before any commitment.

Specialized services are provided and/or coordinated with qualified technical partners according to project requirements.

Contact COTI

Send us your RFQ, part numbers, nameplate photos or technical specifications. We will review your requirement and reply with a structured proposal.
